2. While allotting the candidates recommended by the B.P.S.C. in 1948 to several Circles and Organisations under the other Deptts. it was considered necy. that such of the candidates who are rank outsiders should undergo training in P.W.D. procedure and Account Rules before they are put in charge of regular Sub-Divns. Such candidates have been accordingly posted to several Circles and the S.Es. have been instructed to give them all the facilities to pick up the preliminary practical knowledge of Engineering works and also the P.W.D. Procedure and Accounts Rules. The S.Es. have been further instructed to test those candidates at the end of 3 months in their knowledge of Account Rules according to the syllabus prescribed in para.9 (c) of the Procedure & Rules reg. Professional examination of Dy. Engrs. of the B.S.E. class II and to report the result to Govt.

3. The S.E., E.C., has raised the question as to who should take the above test. In case of the Professional examination of the Dy. Engrs. the Examination Committee consists of one president of the rank of S.E. and two members of the rank of Ex. Engr. who are to be nominated by the President. The S.E., E.C., suggests vide para.4 of his letter within, that the Ex. Engr. of the Divn. to whose office the candidates are attached for practical training may take the test and report the result to the S.E. for communication to Govt. He presumes that it is not necessary for the S.E. to be the President of the test as in the case of professional examination of Dy. Engrs.

4. The object of the test in question as stated above is to give the rank outsiders necy. practical training.....

training before actually putting them in charge of regular Sub-Dns. It is therefore a formal test and not of the standard of progessional examination. The Examination Committee prescribed in case of professional Examination does not appear to be necy. in this case. It is for consideration whether the S.E., E.C.'s suggestion at 'A' above may be accepted and he as well as the other S.Es. may be informed accordingly.

Submitted with refce. to O.L. No.9859/36-E(I), dated the 16-11-49 and the note underlying it.

2. The S.E., S.C., in his letter under disposal states that the procedure of taking the lists by the Ex.Engrs. will naturally keep two or more Ex.Engrs. and few Asstt. or Dy. Engrs. busy for the purpose at one and the same time. The S.E., therefore, suggests that instead of holding so many tests all over the Province, a common test may be held for all the Dy.Engrs. under training in the various circles at central place like Poona in the last week of January 1950, under the chairmanship of the S.E., CE. who will then report the result of the test to Govt.

3. It is for orders whether the S.Es. suggestion may be accepted.

Id/-

S.E.B. is suggestion may be accepted .

Id/-
24-11-49.

If the test is to be oral, it would be no advantage to call all Dy. Engrs to one place. Their time would be wasted on journey too.

If the test is to be written, the best course would be for our S.E. or other officer to draw up a paper, make enough copies & send them to other S.Es for supply through the Ex. Engrs to the candidates. The advantage of asking the Ex. Engrs to hold the test would be lost, if the mtg. is now centralised.

2. A list showing the names of candidates allotted for training, the circle to which they are allotted and the dates of joining apptts. is put up within. It will be seen that only few candidates have joined their apptts. up till now. It is presumed that the test is written. If, therefore, the suggestion made by the Secy. in para.2 of his note is to be implemented it seems that the test will have to be held after all the candidates have completed their three months training. It is, therefore, for consideration whether the S.E., B.C., who is the senior most S.E. at present, may be requested to draw up a paper and supply copies thereof to other S.Es. concerned. On receipt of orders necy. draft will be put up for appl. Z B

'B' may be done.

As the dates on which the various condidates would join, will be different, and as the intention is to have a combined test for all, the test in respect of some of the condidates will have to be taken, much after the completion of the three months period. As the sanctioned period of training is only three months, such condidates will have to be provisionally appointed as Dy. Engrs. in charge of Sub-divisions.

2. The S.E., B.C., has since drawnup the paper and forwarded the same to this office. I have retained this paper with me.

It therefore appears that the test will have to be taken in two batches. In the first batch we may ~~think~~ take the test of the candidates from serial Nos. 1 to 7 on the 24-1-50. Candidates at serial Nos. 8 and 9 will be examined at a later date after drawing up another paper for them.

4. Copies of the paper drawn by the S.E.,B.C., will be forwarded to the respective Ex. Engrs. in sealed covers and they will be asked to open the seal on the 24-1-50 and supervise the candidate while writing his answer paper. It is presumed -

2. The question paper for the test examination of the above candidates was drawn and the answer papers assessed by the S.E., B.C., The S.E. is of the opinion that 50 per cent marks may be taken as the minimum for passing the test. The candidates were informed that unless they pass this test their services are likely to be terminated. The object of the test in question was however to give the rank outsiders necessary practical training before actually putting them in charge of regular Sub-Dns. It is, therefore, a formal test and not of the standard of professional examination. It is, therefore, for consideration whether Mr.B.R. Sant, who has obtained 42 per cent marks may be considered as failed in the test and his apptt. cancelled; or he may be given one more chance and asked to appear again for the next test examination to be taken on or about the 1-3-50 along with the remaining two candidates.

3. It is also for the consideration to which Circle or Deptt. the above mentioned candidates may be allotted. The name of the Circle or Deptt. to which they are earmarked is shown against their names in col. 5 of the statement. It may be stated in this connection that it has been decided separately to allot Mr.S.D.Shah to the State Transport though he was earmarked for the

S.C.C. A separate U.O. note in this connection has been sent to the H.D. for remarks, if any. Necessary orders regarding Mr. Shah's allotment to the State Transport will be issued on receipt of H.D.'s. remarks.

4. On receipt of orders on paras 2 and 3 above necessary draft regarding appointment of the above candidates will be put up.

5. The question regarding the extension of the sanctioned period of 3 months will be taken up after the orders regarding appointments are issued.

Id/-
8-2-50.

S.E's recommendation to consider those candidates who have obtained 50% and above marks should be considered to have passed the test may be accepted.

Mr. Sant may be given another chance to appear at the test to be held in March 1950. He may also be informed of this atonce and told that unless he passes this test his services are likely to be terminated. F.D. will be requested u.o. in due course and agree to the extension of Mr.Sant's training period.

Messrs. Kulkarni and Shimpi may be posted to the Eastern Circle as orginally proposed.

Mr.S.D.Shah may be alloted to the State Transport after receipt of H?D's confirmation.

Messrs. Deshpande and P.V.Shah are earmarked for the Milk Organisation. Before issuing these orders, C.S.D. may be consulted u.o. to confirm that it is still in need of these Dy. Engrs.

Mr.....

Mr.Bhir is earmarked for the Trading Estates (E.D.) It is doubtful if the E.D. now wants a Dy.Engr. for this purpose. U.O. enquiry may therefore be made first from the E.D. in that connection.

D.O. No.MC/Dev.373 III/D
Office of the Milk Commissioner,
Wakefield House, Ballard Estate,
Bombay: 2nd June 1950.

My dear Joglekar,

This refers to the conversation I had with you today regarding Shri B.L.Shivdasani who is one of the Deputy Engineers in the Milk Plan Construction Division. Shri Shivdasani is one of the three Deputy Engineers we had taken temporarily ourselves when P.S.C. candidates were not available. Now that you have nominated three candidates (of which two have already joined) I had to give notice to two out of my three temporary candidates keeping the third one against a vanancy I had. The two candidates are one Shri Kodumal and the other is Shri Shivdasani. So for as the former is concerned neither Shri Kale nor Shri Desai has had good report or opinion about the man. Several irregularities have already been observed and we are glad to get rid of him. Shivdasani, on the other hand is a good and useful officer. In addition he has put in some 24 years service in the Sind Government, of which he was an S.D.O. for as many as 7 years before he came to us. We of course took him first in june 1948 as an Overseer and later on promoted him as an S.D.O. in one of the three temporary appointments. He has, therefore, represented that he should be retained in the existing post. I may say that due to his utility I have offered him the post of the Overseer but this means a loss of approximately Rs.120/- per month, not to speak of the status.

The other officer is Shri K.P.Desai. He is a B.E. (which Shivdasani is not) and his salary is also much higher since Shah was a City Municipal Engineer at Surat before he came to us. For these reasons we have shown Desai against the vacant post that we have

I realise that I shall have to go up to P.W.D. to allow me to retain Shivdasani in his existing post provided I have assurance from you that you will not press me to take Shri Shah whom you have recently nominated in the M.P.C. Division. I understand that Shah is already working in the Road Projects Sub-division, Bombay, and perhaps you may not like to disturb him in view of the above circumstances.

I would greatly appreciate your early reply in the matter.

Yours sincerely,
